

# LG G3 Vigor Rear Facing Camera Replacement

The following guide is to assist in replacing the rear camera on the LG G3 Vigor.

Written By: Zhong Zhen

## INTRODUCTION

Are your selfies not coming out the way you want them to? Here's a guide to replacing your LG G3 Vigor's rear camera to ensure the best photos for Instagram!

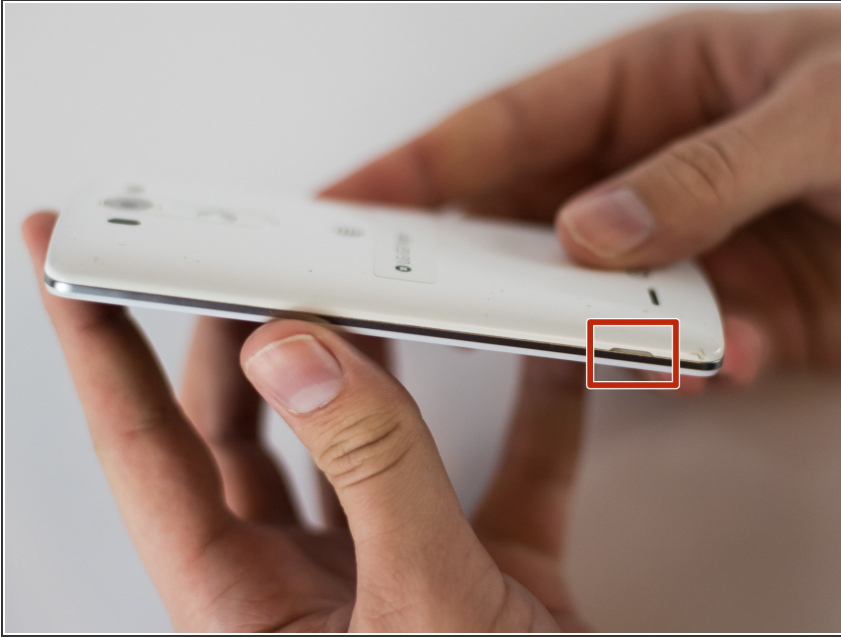

---

### TOOLS:

- [Spudger](#) (1)
  - [iFixit Opening Tools](#) (1)
  - [Phillips #00 Screwdriver](#) (1)
-

## Step 1 — Rear Case

- Locate the notch on the bottom right of the phone.

## Step 2

- Gently pull the cover on the back of the phone off to locate the battery.

## Step 3 — Battery

- Remove the battery by lifting from the slot at the bottom of the battery.

## Step 4 — Midframe

- Remove the twelve Phillips #00 screws securing the midframe to the rest of the phone.

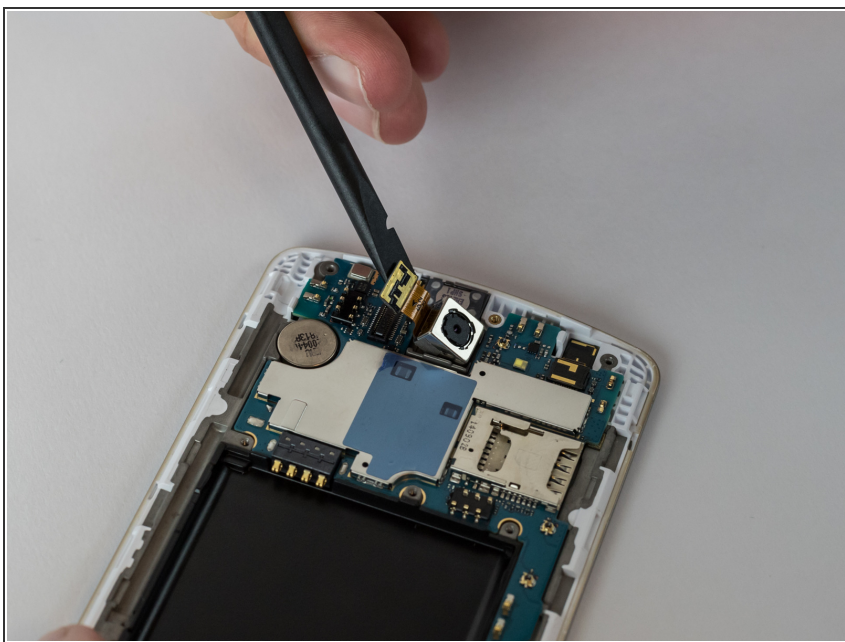

## Step 5

- Work a plastic opening tool around the perimeter of the phone to separate the midframe from the rest of the phone.

## Step 6 — Rear Facing Camera

- Use the spudger to gently unplug the ribbon cable connected to the motherboard. Then remove the rear facing camera.

To reassemble your device, follow these instructions in reverse order.
